Petition for Waiver of Crazy Horse School

---

The Crazy Horse School, an impoverished Native American school located in rural South Dakota, respectfully requests the Federal Communications Commission to grant a waiver of the E-rate FY 2014 form 471 filing deadline and accept our Form 471 application as timely filed. We did not realize that the deadline for posting a form 470 application was on February 26, 2014 and discovered that we had missed the deadline on March 10, 2014 and we immediately posted a Form 470 application on that date.

The 28 day waiting period will expire on April 7, 2014 and we will submit our Form 471 application, certification and Item 21 attachments on that date. The form 471 # is 992439.

Our school population has a National School Lunch Program percentage that is over 95%. We are extremely impoverished and the E-rate funding stream from our application will provide us with critical funding of over \$34,000. We experienced staff turnover and the E-rate deadline fell through the cracks. We would greatly appreciate your understanding of our situation and hope that you will grant our waiver request.

Respectfully submitted,

Linda Hunter  
Superintendent
